**GEOGRAPHY NOTES**

- Satisfactory Progress:** By the end of the semester in which the student has attempted 60 hours (including transfer, advanced placement, advanced standing, and credit by examination), "satisfactory progress" towards a B.A. or B.S. degree in the College of Natural Resources and Environment will include the following minimum criteria: having an in-major and overall grade point average of at least 2.0 and passing at least 24 semester credits that apply to the Pathways to General Education.
- In-major GPA Computation:** Includes all courses designated as GEOG, an in-major and overall GPA average of 2.0 is required for graduation.
- Foreign Language Requirement:** A sequence of two (2) foreign language courses is required for graduation unless two (2) high school units of the same foreign language or six (6) transfer credit hours of foreign language have been earned. These credits do not count toward graduation. See catalog section on "Graduation Requirements".
- Meteorology Double Major:** Geography students planning to double major in Meteorology must complete **15 additional credits:** at least 12 hours of GEOG coursework that is not being used to complete either major; and **two distinct** (3 credits each) field experiences that apply to each major.
- Pathways to General Education:** Courses used to satisfy Pathways requirements **cannot** be double counted to also satisfy degree core requirements. However, Pathways courses may be double counted to satisfy other program area credit hour requirements.
