### Prerequisites

This checklist has no hidden prerequisites, although some of the courses listed are prerequisites for other courses. Please see your advisor or consult the Undergraduate Course Catalog for more information. Please note that Chemistry majors are expected to be “calculus-ready” upon the start of their curriculum.

### Acceptable Substitutions

<sup>1</sup>Prior credit for CHEM 1045 may be substituted for CHEM 1065.

<sup>2</sup>Prior credit for CHEM 1046 may be substituted for CHEM 1066.

<sup>3</sup>If a student has taken CHEM 2535 prior to adding a degree in chemistry, a minimum grade of “B” (3.0) or better is required to substitute CHEM 2535 as CHEM 2565. If a student has taken CHEM 2536 prior to adding a degree in chemistry, a minimum grade of “B” (3.0) or better is required to substitute CHEM 2536 as CHEM 2566.

<sup>4</sup>Since CHEM 2545-2546 does not satisfy the prerequisite for CHEM 2556 (due to training on specific instrumentation), if a student adds a CHEM BS degree after completing CHEM 2545-2546, two or more credits of CHEM 4994 may substitute for CHEM 2556 to meet the requirement.

<sup>5</sup>STAT 4604 may be substituted for (STAT 3005 or STAT 3615).

<sup>6</sup>Credit for CHE 2164 may be substituted for CHEM 3615

### Foreign Language Requirement

Students who did not successfully complete at least two years of a single foreign, classical, or sign language during high school must successfully complete six credit hours of a single foreign, classical, or sign language at the college level. Courses taken to meet this requirement do not count toward the hours required for graduates. Please consult the Undergraduate Catalog for details.

### Satisfactory Progress Towards Degree and Minimum Grade Requirements

Upon having attempted 72 credits, student must have completed CHEM 1055-1056, CHEM 1065-1066, CHEM 1004, CHEM 2565-2566, CHEM 2555-2556, PHYS 2305-2306, and MATH 1225-1226.

Chemistry majors must maintain an in-major GPA of 2.0. If a chemistry major fails to meet this requirement for one academic term the student will be placed on Policy 91 (Satisfactory Progress Towards Degree) probation. Failure to meet the standard for two consecutive semesters will result in a Policy 91 suspension.

Chemistry majors must earn a grade of “C” or better in CHEM 1055, 1056, and 2565.

- If a chemistry major fails to earn a “C” or better in CHEM 1055, the student must either retake this class (and earn the minimum grade) **or** take CHEM 1035-1036 *General Chemistry* and earn a “B” or better in both semesters to remain in good standing for a chemistry degree and to enroll in CHEM 2565.
- If a chemistry major fails to earn a “C” or better in CHEM 2565, the student must either retake this class (and earn the minimum grade) **or** take CHEM 2535 *Organic Chemistry* and earn a “B” or better to remain in good standing for a chemistry degree and to enroll in CHEM 2566.

### Graduation Requirements

Graduation requires completion of a minimum of 120 credit hours with a GPA of 2.0 or greater for all hours attempted. In addition, students must have an in-major GPA of 2.0 or greater counting all required chemistry courses and chemistry electives. The in-major CHEM GPA excludes Chemistry in Context (CHEM 1015, 1016, 1025, 1026), First-Year Experience (CHEM 1004), and Chemistry Problem Solving Skills (CHEM 2984). No more than 6 hours of CHEM 2974, 4974, and 4994 will be included in a student's in-major GPA.
